# Install the Kronos app (Android)

Follow the instructions below to install the Kronos app on your Android device.

1. Open the **Google Play Store** app on your Android device.

2. Tap the search box at the top of the app, and type "Kronos Mobile".
   Tap the **Kronos Mobile** option.

3. Tap the **Install** button to download the Kronos app.

4. A pop-up message displays, advising that the app will need access to some of your phone's contents.
   Tap the **Accept** button.

   Your data will be kept private and secure with the Kronos app.

5. The app will download.
   As the app is quite small (10.33MB), it should take less than a minute to download in 3G, and even less time in 4G or Wi-Fi.
   Once the app has been downloaded and installed, click the **Open** button.

6. The app will also display on one of your mobile screens, identified by this icon:
   Tap the **Kronos Mobile** icon to open the app.

7. Enter the following **Server Address**:
   https://kronosdevice.lwb.org.au/wfc
   Tap the **Proceed** button.

8. Enter your LWB network **User Name** (usually *firstname.surname*) and **Password**.
   Tap the **Log On** button.

   The app will ask if you allow your location to be sent to the server. LWB is not using this feature, so select **No**.
