

Life Without Barriers works to help people across Australia

Each year we share a report on how we have helped people.

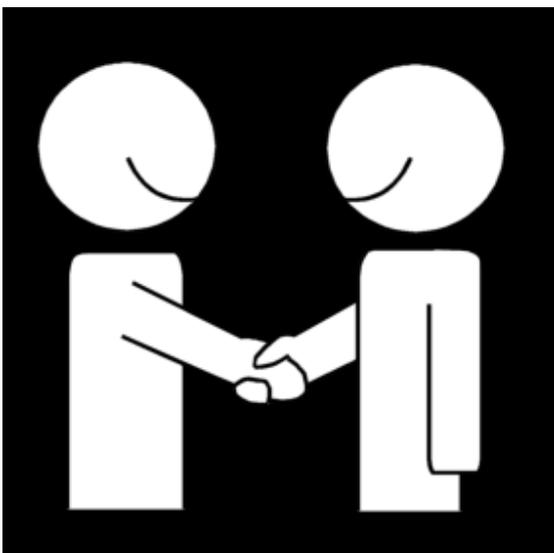

This is called an Annual Report.

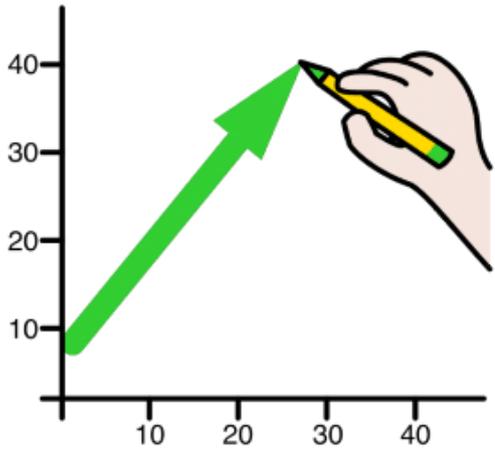

The report says we have

- Supported 24,000 people with 13,000 staff and carers

- That we worked with people we support and their families so they can do things in their life they want to

- Made improvements to the way we work

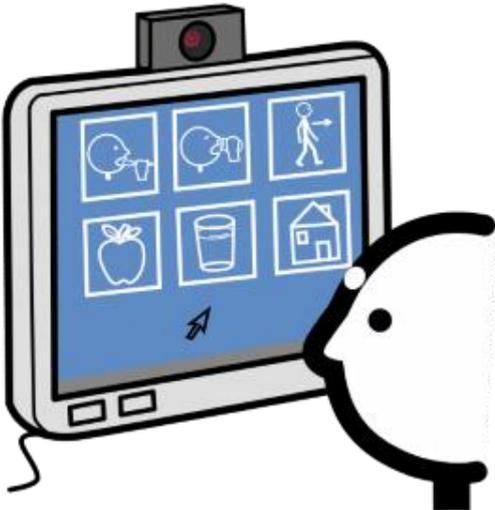

- Employed more people with disabilities

- And worked with Aboriginal and Torres Strait Islander people

We thank the people we help for choosing
Life Without Barriers

You can access the full report here -
