

# Disability services

Support on your terms

LIFE  
WITHOUT  
BARRIERS

## Why choose Life Without Barriers?

With more than 30 years of experience, Life Without Barriers is a trusted disability service provider. Founded by families, for families, we are now trusted by people across Queensland and Australia.

As Centacare steps away from disability services, we know this might feel like a big change. We're here to make it simple – keeping your supports steady, your routines familiar, and your future secure.

## What makes us different:

- **People first** – You come first in every decision. We listen to you and support your choices.
- **Local and connected** – Our staff live and work in your community. You'll feel the care of a local team, backed by the stability of a national organisation.
- **Consistency that matters** – Change can be hard and we know your support workers are important to you. We'll work with you to understand and respect those relationships while planning your supports
- **Active support** – We'll help you take part in daily life in ways that matter - learning new skills, joining activities, exploring hobbies, or building independence step by step.
- **Choice made simple** – We'll shape supports together so they fit your life. Choice should feel clear, not confusing.

## What this means for you

- ✓ **Smooth transition** – with little to no disruption
- ✓ **Flexibility** – Supports shaped to your routines and goals
- ✓ **Ongoing support** – We'll partner closely with you and your support coordinator
- ✓ **Long-term security** – local care, backed by national strength

## Meet Rebecca, your local contact

### Rebecca Hubball
