

Dear Doctor,

I have become aware of the Culturally Diverse Psychological Service (CDPS).

It is a free service that provides support to culturally and linguistically diverse clients residing in the Perth metropolitan area, aged 12 years and over for *mild-moderate* psychological distress.

The service is offered by Life Without Barriers and requires a referral by a GP (or Psychiatrist or Paediatrician) using a dedicated referral form.

I would like to be referred to this service.

If I have not brought the referral form with me, you can find it in the Best Practice Premier Software as **CALD Psychological Service GP Referral Form** or obtain it from Life Without Barriers website ([www.lwb.org.au/CDPS](http://www.lwb.org.au/CDPS)). Please complete it and email it to [cdps@lwb.org.au](mailto:cdps@lwb.org.au).

More information about the service is on the referral form. You can also contact the service on 0418 724 549.

Thank you.
