WHEN LEAVING

Sequence of taking off (doffing) PPE

Remove the gloves

Remove the gown

Perform hand hygiene

Remove the eye protection

Remove the P2/N95 mask

Perform hand hygiene

Specific donning and doffing areas need to be determined on a case-by-case basis for each property, ensuring they are a minimum of 2 metres away from each other.

- The recommended donning clean area should be in an office or garage and away from the client's room or area.
- The recommended doffing area should be in the isolated area and away from the clean area(s) of the house.

Removed PPE must be placed in a contaminated waste bin/bag and removed by a specialised contractor.

STAFF MEMBERS IN POTENTIALLY CONTAMINATED PPE MUST REMOVE IT BEFORE GOING INTO 'CLEAN' AREAS IN THE HOUSE OR OUTSIDE

LIFE WITHOUT BARRIERS
