Review – To be completed by Health Professional(s) only

- A Health Professional must review Plans at least annually or as often as determined by the Health Professional. The Health Professional should also include signs that, if observed by staff, indicate an immediate review should take place. LWB Disability Support Staff must also monitor the person's health in the context of the STOP AND WATCH principles outlines in the [NDIS LWB 5501 Health and Wellbeing - Procedure](#)
- Plan Reviews can only be completed by the health professional who originally developed the plan or another health professional with equivalent qualifications. If the health professional has changed since the original plan was developed, they may wish to develop a new plan.
- If the current plan no longer meets the needs of the person, a new plan is required.

Treating Health Professional Declaration

I have today reviewed this plan and confirm that it remains appropriate to meeting the needs of the person.
