Provide a copy of this page to assist the client understand how their NDIS funding will be used:

Purpose	Outcome Domain	Support Category	Support Items
The 3 budgets have 3 support purposes: **1. Core** - funds to assist with areas of your daily life. **2. Capital** – funds to assist you to purchase technological aids and add ramps or rails etc. to your house so you can live in it easier. **3. Capacity Building** – assist you to learn to take care of your business matters, connect with the community around you, and learn skills.	The Outcome Domain has been broken into eight areas. These are the areas of your life that will be improved as a result of you receiving NDIS funding.	Support Category is broken into 15 support categories. This how the NDIS has grouped all the different supports an NDIS Plan can fund – there are hundreds of different supports available (called support items) and they are all grouped under these 15 categories.	Support Items are the specific supports that the funding will cover. They have a long Item Number as a reference and Disability Providers use the information to quote for service and claim funds from your plan as they give you the support you asked for.

The above table shows how this is applied to the below support item:

Support Category ▸ Sequence Number ▸ Registration Group ▸ Outcome Domain ▸ Support Purpose

For example for this support item:

01_013_0107_1_1 – Assistance with Self-Care Activities – Standard – Saturday

Support Category	Sequence Number	Registeration Group	Outcome Domain	Support Purpose
01	013	0107	1	1
